## **Changing Values, Attitudes and Behaviours in Ireland** Amy Erbe Healy Michael J. Breen

The European Social Survey (the ESS) is an academically-driven social survey designed to chart and explain the interaction between Europe's changing institutions and the attitudes, beliefs and behaviour patterns of its diverse populations. Established in 2001, and currently preparing for its seventh round, this biennial cross-sectional survey covers more than thirty nations and employs the most rigorous methodologies. This volume provides an analysis of the Irish data over six rounds of the European Social Survey, focusing on the internal changes over time in Ireland and situating these changes in a broader European context. The book's core chapters deal with the primary themes of the European Social Survey: Institutional Trust, Democracy and Legitimacy; Political Engagement and Socio-Political Values; Moral and Social Values; Social Capital and Social Exclusion; and National, Ethnic, and Religious Identity. A separate chapter focuses on the survey's rotating modules, which change from survey to survey. These topics include Citizenship, Involvement and Democracy; Immigration; Well-Being; Health; Economic Morality in Europe and Welfare Attitudes; and Trust in Criminal Justice. Each chapter provides a list of background literature to the topic in Ireland, an analysis of the data that will be both accessible for the general reader, but offering something deeper to the expert, and a clear comparison of how the Irish data fit in with the rest of Europe. This book charts a changing Ireland over a highly significant period of its history. Given the significance of the ESS as the most rigorous social science survey in Europe and the scope of its questionnaires, this volume is highly pertinent both in terms of how it maps political, social, demographic and attitudinal changes in Ireland, and in the way it places those changes within a European context.
