David Hume's Argument Against Miracles

Francis J. Beckwith

David Hume's Argument Against Miracles Francis J. Beckwith

In this book the author offers a critical analysis of David Hume's argument against miracles from his *Enquiry Concerning Human Understanding*, "Of Miracles" is one of the most influential works written in defense of the position that belief in supernatural occurrences is not reasonable. Using Hume's work as a point of departure, the author addresses the two most important epistemological questions asked about miracles: Is it ever reasonable to ascribe a divine source to an anomalous event in order to identify it as miraculous? and What theoretically entails sufficient evidence that a miracle has actually taken place? Contemporary rehabilitations of Hume's argument, as put forth by Antony Flew, Alastair McKinnon, and Patrick Nowell-Smith, are evaluated. Contents: **Defining the Miraculous; Hume's Argument, Part 1; Hume's Argument, Part 2; The Rationality of Belief and the Existence of God; Contemporary Rehabilitations of Hume's Argument; and Miracles and Evidence.**
