Frank Lloyd Wright Glass Art

Thomas A. Heinz

Frank Lloyd Wright Glass Art Thomas A. Heinz

This lavishly illustrated book devotes itself to Wright's formidable contribution to the medium and features a number of powerful two-dimensional graphic designs and a number of three-dimensional units. Stained glass in the USA as well as the technical aspects of glass making are discussed. The majority of his work in glass was concentrated into the first decade of the 20th century when Wright abandoned old-fashioned stained glass windows and began experimenting with light screens of concrete developing into wood fretwork and glass block and tubing.
