The Practice of Computing Using Python Plus MyProgrammingLab with Pearson eText -- Access Card Package (3rd Edition) William F. Punch, Richard Enbody

NOTE: Before purchasing, check with your instructor to ensure you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a **Course ID**, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

For courses in Python Programming

This package includes MyProgrammingLab™

Introduces Python programming with an emphasis on problem-solving

Now in its **Third Edition**, *Practice of Computing Using Python* continues to effectively introduce readers to computational thinking using Python, with a strong emphasis on problem solving through computer science. The authors have chosen Python for its simplicity, powerful built-in data structures, advanced control constructs, and practicality. The text is built from the ground up for Python programming, rather than having been translated from Java or C++.

Focusing on data manipulation and analysis as a theme, the text allows readers to work on real problems using Internet-sourced or self-generated data sets that represent their own work and interests. The authors also emphasize program development and provide readers of all backgrounds with a practical foundation in programming that suit their needs. Among other changes, the **Third Edition** incorporates a switch to the Anaconda distribution, the SPYDER IDE, and a focus on debugging and GUIs.

From reader reviews:

Dave Thomas:

This book untitled The Practice of Computing Using Python Plus MyProgrammingLab with Pearson eText -- Access Card Package (3rd Edition) to be one of several books that will best seller in this year, that's because when you read this e-book you can get a lot of benefit in it. You will easily to buy this kind of book in the book shop or you can order it via online. The publisher of this book sells the e-book too. It makes you easier to read this book, since you can read this book in your Smartphone. So there is no reason to you personally to past this publication from your list.

Robert Monson:

The guide with title The Practice of Computing Using Python Plus MyProgrammingLab with Pearson eText -- Access Card Package (3rd Edition) possesses a lot of information that you can learn it. You can get a lot of benefit after read this book. This book exist new expertise the information that exist in this publication represented the condition of the world right now. That is important to yo7u to be aware of how the improvement of the world. This book will bring you in new era of the internationalization. You can read the e-book on your own smart phone, so you can read this anywhere you want.

Steven Dillinger:

The book The Practice of Computing Using Python Plus MyProgrammingLab with Pearson eText -- Access Card Package (3rd Edition) has a lot of knowledge on it. So when you check out this book you can get a lot of help. The book was written by the very famous author. Tom makes some research previous to write this book. This particular book very easy to read you may get the point easily after scanning this book.

Sam Hasse:

Are you kind of hectic person, only have 10 as well as 15 minute in your day time to upgrading your mind proficiency or thinking skill even analytical thinking? Then you are having problem with the book as compared to can satisfy your short time to read it because all this time you only find guide that need more time to be study. The Practice of Computing Using Python Plus MyProgrammingLab with Pearson eText -- Access Card Package (3rd Edition) can be your answer as it can be read by an individual who have those short time problems.
