ABOUT WORKPLACE SPANISH LEARNING KITS:

Workplace Spanish learning materials are designed to help cut through language barriers by enabling users to communicate, simply and effectively, with Spanish-speaking co-workers, customers, patients or citizens. No grammar or language rules to learn and no prior Spanish experience is necessary.

Each Workplace Spanish (R) Learning Kit includes:

- an easy-to-use 8.5 x 11 manual
- a job-specific audio CD that covers the material in the manual
- our exclusive Click It (R) CD-ROM which makes anyone an instant Spanish-speaker. The well-organized materials include a pronunciation guide, Spanish topics, terms, & translations, phonetic pronunciations, practice conversations, quizzes and an alphabetical keyword list.

The audio CD contains the topics, terms and practice conversations used in the learning manual. All expressions are pronounced in Spanish by a native speaker and then repeated phonetically by an American speaker. Newcomers to Spanish usually find it easier to learn from the phonetic pronunciations because it is often difficult to replicate the sounds of a native speaker.

The Click It (R) CD-ROM is a streamlined electronic version of the learning manual for PC use. A great time-saver you just click on a term or phrase in English to hear it pronounced aloud in Spanish. Either repeat and learn the Spanish, or play it loud enough for a Spanish-speaker to hear. Nothing could be easier or more helpful. It makes anyone a Spanish-speaker.

Workplace Spanish for Health Care is designed for a wide variety of health care professionals including doctors, nurses, technicians, and administrative associates. The purpose is to help connect & communicate with Spanish speaking patients to treat illness and injury and process medical transactions efficiently and effectively. Search inside the book or visit our website for samples & detailed information.
