The Birth of Capitalism: A 21st Century Perspective (The Future of World Capitalism)

Henry Heller

The Birth of Capitalism: A 21st Century Perspective (The Future of World Capitalism) Henry Heller
In the light of the deepening crisis of capitalism and continued non-Western capitalist accumulation, Henry Heller re-examines the debates surrounding the transition from feudalism to capitalism in Europe and elsewhere.

Focusing on arguments about the origin, nature and sustainability of capitalism, Heller offers a new reading of the historical evidence and a critical interrogation of the transition debate. He advances the idea that capitalism must be understood as a political as well as an economic entity. This book breathes new life into the scholarship, taking issue with the excessively economic approach of Robert Brenner, which has gained increasing support over the last ten years. It concludes that the future of capitalism is more threatened than ever before.

The new insights in this book make it essential reading for engaged students and scholars of political economy and history.

Billie Gallagher:

As a college student exactly feel bored to help reading. If their teacher questioned them to go to the library in order to make summary for some guide, they are complained. Just little students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that reading through is not important, boring and can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this The Birth of Capitalism: A 21st Century Perspective (The

Future of World Capitalism) can make you experience more interested to read.
